MAWLA

Mobile Developer

Applications to hello@mawla.io

Mawla is a creative development studio, based in Dublin, Ireland

What we do

At Mawla we work with startups, entrepreneurs and SMEs to bring their ideas into the world. We offer consultancy and full end to end development services.

Who we're looking for

We're looking for a super motivated maker. Someone who believes mobile comes first. You must be proud of what you work on and obsess about the quality of the work you produce. You're always up to date with new apps, products and startups.

The day to day will be mobile development, but our end goal is to gather a team of like minded individuals to go after some of our own product ideas.

Who I am

You will be joining a close knit team. The team will grow further over the coming months. You can meet the team over at <http://mawla.io/about>

I've worked with some cool companies: Mastercard, Intercom, Boxever, to name a few. With Mawla I've worked with Tapadoo, Openet, iCabbi, eGifted, and more.

GitHub: <http://mawla.link/github>

Working from home

We're currently distributed so we don't have a dedicated office, you're welcome to work from home or a hot desking arrangement can be made. Daily hangouts and weekly face to face meetings are our standard.

An office may be established later in the year

Salary: Negotiable
Experience: 2+ Years

Required Experience

A strong competency in Android or iOS, knowledge of both is a huge plus.

Have published one or more apps to the Google Play or the App Store.

2+ years development experience is preferred, exceptions can be made for the right person.

Nice to have

Bachelor's degree in Computer Science degree or equivalent.

Knowledge of:

Web Development - Angular, Ember, React
Backend Development - Rails, NodeJS, Spring,
Other - Database Design, React Native

An eye for design, any interest in marketing or sales

What we offer you

- You will be part of defining our technical process.
- The opportunity to work on several different projects.
- The chance to shape hiring, culture and our brand.
- We use the newest Apple hardware, you will be working on a brand new Macbook Pro.
- Financial Incentives based on performance.
