

MAWLA
<https://mawla.io>

Product Engineer

Applications to hello@mawla.io

Mawla is a creative development studio, based in Dublin, Ireland

What we do

At Mawla we work with startups, entrepreneurs and SMEs to bring their ideas into the world. We offer consultancy and full end to end development services.

Who we're looking for

We're looking for motivated product people. People who believe the product comes first. You're proud of what you work on and obsess about the quality of the work you produce. You're not afraid to ask questions or question assumptions.

You keep up to date with new tools, products and startups.

Who we are

You will be joining a close knit team. From AR experts to former Architects our team has a wealth of technical and life experience, this experience guides us and influences our work.

The team will grow further over the coming months, now is a great time to join and put your mark on the business.

You can meet the team over at <https://mawla.io/team>

Where we work

We work remotely around Dublin, and sometimes Europe. We're always in touch on Slack and have daily video calls.

We may move to a part time co-working or full time office in the future but so far the distributed life has scaled well.

Salary: Negotiable
Experience: 2+ Years

Required Experience

A strong competency in a Frontend, Backend or mobile environment. Android or iOS, knowledge or both is a huge plus. Provide examples of your work, products you've shipped, decisions you've made.

2+ years development experience is preferred, exceptions can be made for the right person.

Nice to have

Bachelor's degree in Computer Science or equivalent.

Knowledge of:

Web Development - React, Vue, Angular, Ember
Backend Development - Rails, NodeJS, Spring,
Other - Database Design, React Native

An eye for design, any interest in marketing or sales

What we offer you

You will be part of defining our technical process.

The opportunity to work on several different projects.

The chance to shape hiring, culture and our brand.

Financial Incentives based on performance.
